The permit is a general permit which is available on line. Here is a link to the permit:

[http://www.tceq.texas.gov/permitting/stormwater/TXR05\\_AIR.html](http://www.tceq.texas.gov/permitting/stormwater/TXR05_AIR.html)

You are correct that since the permit is expired it is useless. In addition, the SIC code that allowed CES to get this permit is not a valid code for this site. They really do not qualify for a general permit.

Hi Beth and Gary,

Could you help me please? From ARTS we see that CES held a stormwater permit (TXR05T850) that is now expired. How would I get a copy of this? We didn't see this in the region files. Would it do the EPA any good as it is expired?

Thanks,

Terry

**Terry:**

**Can you get me a copy of the TPDES Permit for CES? They apparently had 2 stormwater outfalls and I assume they had a permit for these discharges.**

**Thanks**
